Solutions and products

QualityX

Plans, records and analyses quality inspections at suppliers and in production.

- Focus inspections where error rates are highest
- Assess suppliers and measure their performance
- Quality data before and after sale in one place

Supplier Collaboration

Portal for digital collaboration with all suppliers.

- Communication with all suppliers in one place
- Tracking of orders and deliveries up to labelling
- Automated audits
- Dashboards and analytics

Digitaler Produktpass und WebLabel

Provides product data for the digital product passport and for market-compliant care and composition labels.

- Digital product passport via QR code
- Label content matching target-market requirements
- Sustainability (ESG) records along the supply chain

Who it is for

Fashion and luxury brands that manage many suppliers and production stages and need to keep quality, deliveries and compliance obligations under control.

The companies on the ELVIAS platform are legally independent companies.
